VOICEOVER (FEMALE):

If your organization has a range of properties, it can be hard to track, process and address all the property tax bills, payments, billback and issues. You need one solution that is comprehensive, transparent and cost efficient. To efficiently integrate data, mitigate duplicates, analyze opportunities and process payments, you need one streamlined solution. That's the power of ptvaultx, an alyx solution powered by Grant Thornton.

00:00:31:14 – 00:01:08:16

VOICEOVER (FEMALE):

It combines our tax experience with ready automation from the alyx platform. Together, they create a tool that is comprehensive, transparent and cost efficient. The result? ptvault.x integrates tax data from ERP, mitigates duplicates, analyzes abatement opportunities, predicts tax pass-through, processes payments and presents support teams with the details they need to resolve customer issues. It's an all in one streamlined system. This is ptvault.x, with help from Alyx.
